

VISION

To impart wisdom to excel the qualities of heart and head of the young ones and thereby become well equipped in the spiritual, intellectual, social and human levels to be happy and holy human beings.

MISSION

Happy Onam to all of you on the splendid occasion of the release of the new Laureola. The beauty of the Onam festival lies in its secular fabric. People of all religions, castes and communities celebrate the festival with equal joy and verve. It also helps to create an atmosphere of peace and brotherhood. Let honesty, sincerity and justice reign in our world.

Let us remember in a special way all our teachers (September 5th - Teachers' Day) with profound sense of gratitude for their deep dedication for the well being of us. Guru (Sanskrit words "Gu" - Hidden and "ru" - to form) is a sacred person who forms, informs and transforms the Sishya (Disciple) by helping to explore or his/her hidden talents. A good teacher is like a candle - it consumes itself to light the way for others. The new academic year has already begun. Let us try our best to make the most of the opportunities for the integral growth of our personality. Not only intelligence (knowledge received from the teachers and books) but also intelligence (wisdom received from the practical, ethical and spiritual life experience) help you to be mature persons. May God bless all of us.

EVERY COLLEGE STUDENT SHOULD KNOW

1. **Don't settle for a job you're not passionate about.** When you're passionate about your job, you're excited, you work longer hours and end up accomplishing much more. Life is too short to settle for a career that you hate!
2. **Sacrifice today to position yourself for tomorrow.** You can't have everything you want today so you need to work hard to put yourself in a better position in the future.
3. **Campus Involvement Builds Lasting Friendships.** Your social life is a huge part of the college experience. Getting involved on campus in clubs, organizations, or athletics will help you meet new people and develop lasting friendships. Enjoy yourself!
4. **Balancing Work and Play Reduces Stress.** Balancing an academic schedule, extracurriculars, athletics, perhaps a job, and on top of all that a social life can be extremely demanding. All work and no play is a sure-fire recipe for unhappiness and will catch up to you in the long run.
5. **Your Professors are Not the Enemy.** Talk to your professors. Be sincere in showing your efforts in the classroom. Your professors will begin to see that you are trying and your efforts will pay off. As a result, they will be more willing to go out of their way to help you, and you may even be able to use them as references later on.
6. **Don't get discouraged too quickly.** Many of us will write cover letters for dozens of jobs and not receive any responses. Remember, even the accomplished professionals we admire had to start somewhere.
7. **Enjoy this time of uncertainty.** Travel, try a new hobby, and just simply relax. As Twitter CEO Dick Costolo advised, "Don't always worry about what your next line is supposed to be and what you're supposed to do next. There's no script. Live your life. Be in this moment."
8. **Recognize what you don't want to do.** Trust your intuition.
9. **Teach yourself new skills.** Teach yourself new skills by reading books from your local library and watching tutorials on YouTube.
10. **Read for pleasure.** Now is the perfect time to catch up on your reading list. Not only will reading for pleasure make you a more creative, intelligent and well-rounded person, but it may also provide you with a great conversation starter for your next interview or networking event.

INTERZONE WINNERS

CONGRATULATIONS to "TEAM SAHRDAYA" for acquiring 3rd prize in University (Interzone) competition held at Govt College, Malappuram.

"Your time is limited, so don't waste it living someone else's life. Don't be trapped by dogma — which is living with the results of other people's thinking. Don't let the noise of others' opinions drown out your own inner voice. And most important, have the courage to follow your heart and intuition. They somehow already know what you truly want to become. Everything else is secondary."
