

NEW DEPLOYMENTS IN COURSE FILE

We have done two new options in the admin side and faculty login related to the course file for a subject .

ADMIN SIDE:

1. Course File Element Settings

Purpose -> Customised elements or sections can be added in the course file. Previously user defined objects could not be added in the course file. Now the admin can add custom elements needed in the course file.

2. Customize Course File label

Purpose -> In the old course file we could not change the header names in the course file. Now we can edit the header from the admin side and it will reflect in the course file.

FACULTY LOGIN :

- 1. Add course File objectives/File upload (new sub menu)**
- 2. Eligibility report (Inside course as a new section)**
- 3. Details of Tutorial (Inside course as a new section)**
- 4. OBE report (Inside course as a new section)**
- 5. Sessional Result Analysis**
- 6. Batch timetable**
- 7. Save order**
- 8. Reset**

ADMIN SIDE:

1.Course File Element Settings

Steps included in creating custom section:

Step1: Go to admin -> more -> course file element settings. (Can be enabled in privileges if not found)

The screenshot shows the 'Create Course File Custom Element' form. The form has three main input fields: 'Element Name' (with a placeholder 'Enter Element Name'), 'Element Type' (a dropdown menu), and 'Assign Permission' (with a placeholder 'Nothing selected'). A 'Create Element' button is located below these fields. Below the form is a table titled 'Created Course File Custom Elements' with the following data:

#	Element Name	Element Type	Permissions	Manage	Delete
1	VISION MISSION	COMMON	<input checked="" type="checkbox"/> staff <input checked="" type="checkbox"/> hod <input checked="" type="checkbox"/> principal	Edit Element Manage Element	Delete

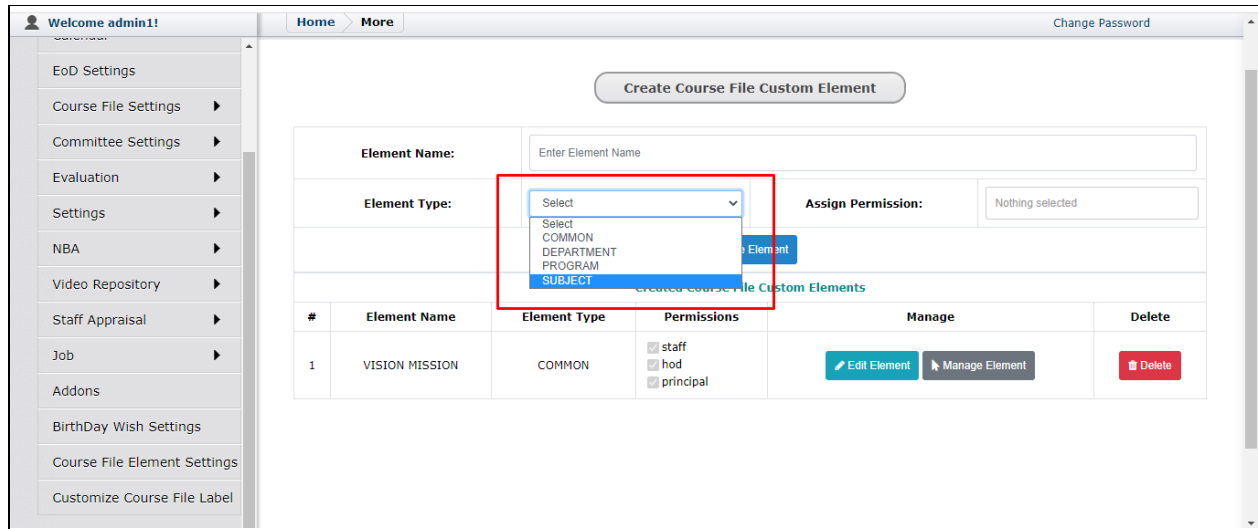

Step 2: create a new element

Step 3: For creating a new element you have to give a **Element Name** , choose **Element Type** and **Select Assign Permission**

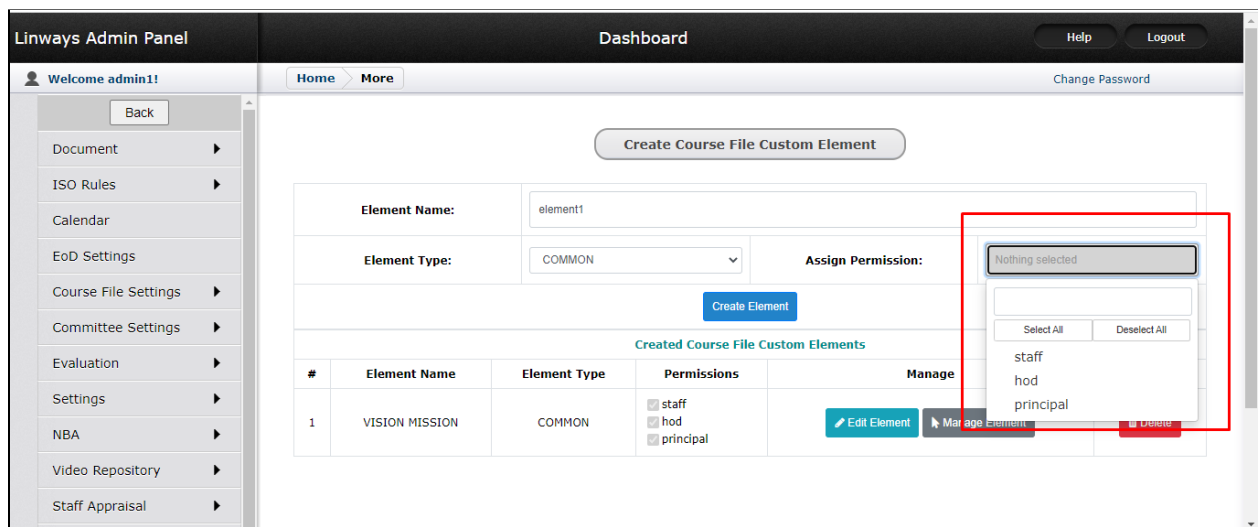

Step 4 : **Element type** refers to -> on what basis this created element will be visible in their course file . You can choose it from the options in the drop down

Element type options -

- Common - Customised sections will be common for all the departments
- Department - Customised section will be shown department wise
- Program - Customised section will be shown course name wise (Added for a batch)
- Subject - Customised sections will be shown subject wise

Step 5: In assign permission -> Here the permission to edit the created element can be assigned. Assigned users can edit the created element.

Step 6: Once you create the element you have to add content to the element and this content created inside this element will be visible in the course file as a new section.

Step 7: You can create the content by choosing the option manage element

The screenshot shows the 'Linways Admin Panel' dashboard. On the left is a sidebar with a 'Welcome admin1!' message and a 'Back' button. Below it are menu items: Document, ISO Rules, Calendar, EoD Settings, Course File Settings, Committee Settings, Evaluation, Settings, NBA, Video Repository, and Staff Appraisal. The main area is titled 'Dashboard' and contains a 'Create Course File Custom Element' form. The form has fields for 'Element Name' (filled with 'element1'), 'Element Type' (set to 'COMMON'), and 'Assign Permission' (set to 'Nothing selected'). A 'Create Element' button is below the form. Underneath is a table titled 'Created Course File Custom Elements'.

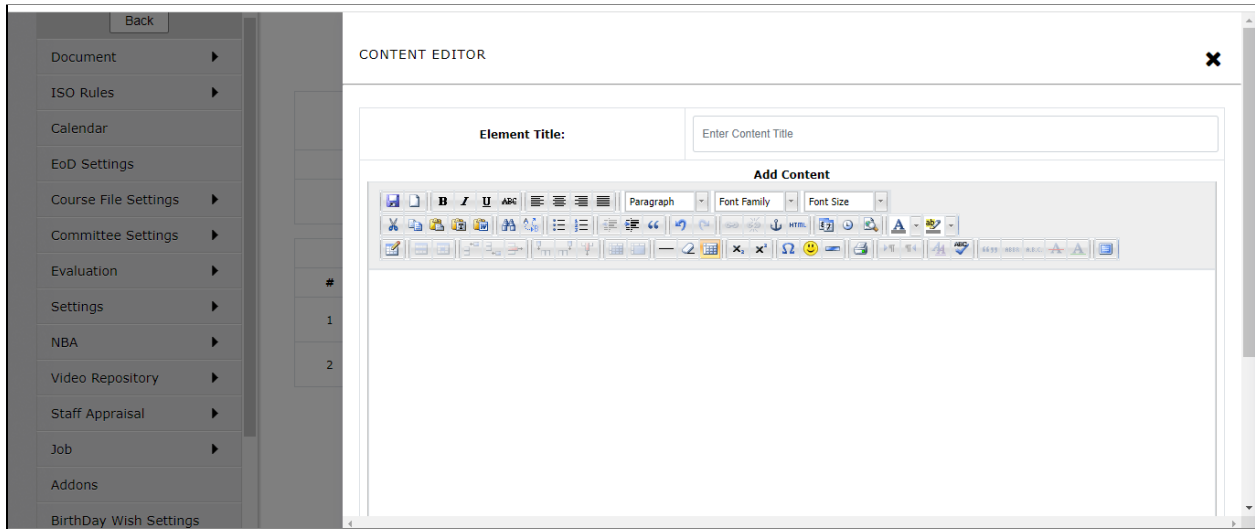

#	Element Name	Element Type	Permissions	Manage	Delete
1	VISION MISSION	COMMON	<input checked="" type="checkbox"/> staff <input checked="" type="checkbox"/> hod <input checked="" type="checkbox"/> principal	Edit Element Manage Element	Delete

Step 8: Here you can create the content by choosing the option create content

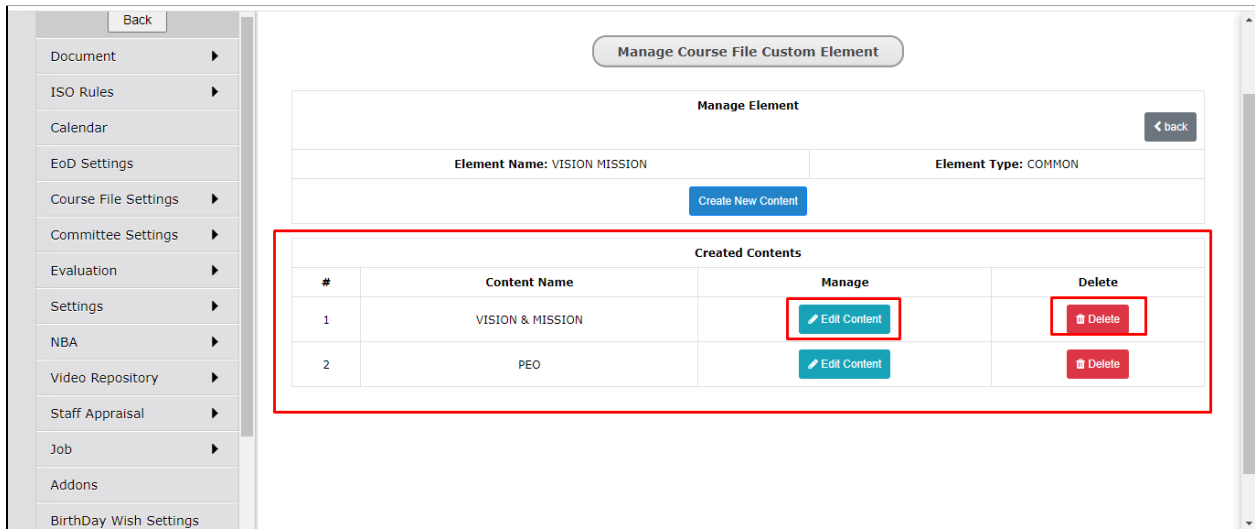

The screenshot shows the 'Manage Course File Custom Element' form. It has a 'Manage Element' title and a '< back' button. The form displays 'Element Name: VISION MISSION' and 'Element Type: COMMON'. A 'Create New Content' button is highlighted with a red box. Below the form is a table titled 'Created Contents'.

#	Content Name	Manage	Delete
1	VISION & MISSION	Edit Content	Delete
2	PEO	Edit Content	Delete

Step 9: On choosing create content option a tab will be opened where you can add content title and description.

Step 10: Once the content is created it will be visible in created contents.

Step 11: choosing the Edit content option you can edit the content created if required and on choosing delete option content created can be deleted.

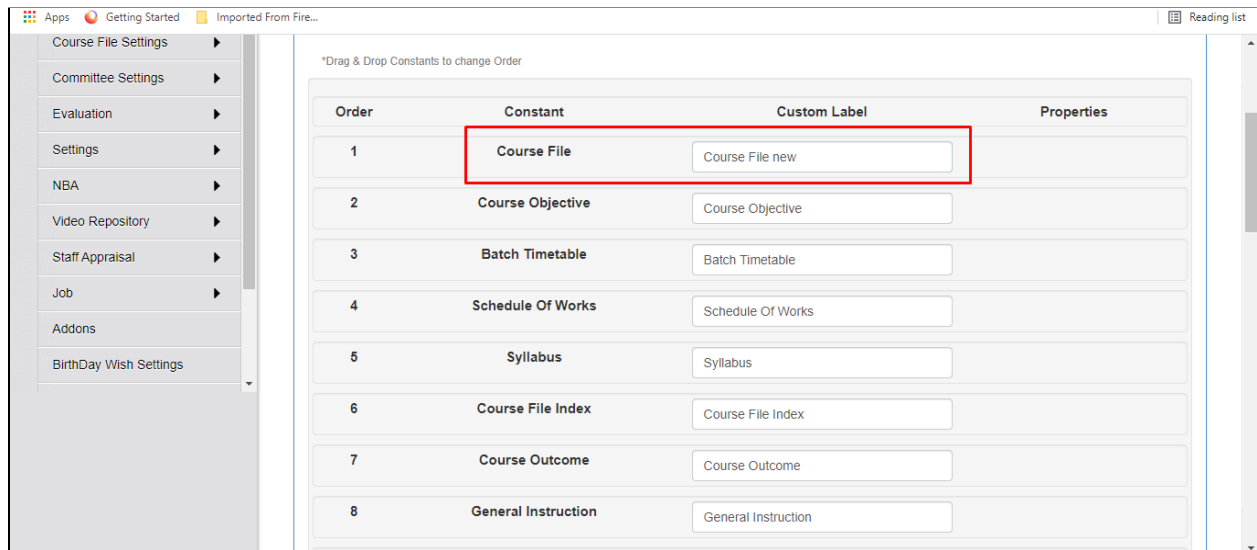

2. Customize Course File label

In the customized course file label , default sections in the course file are visible. Here you can change the label name of the sections.

Steps included in changing label name of the sections:

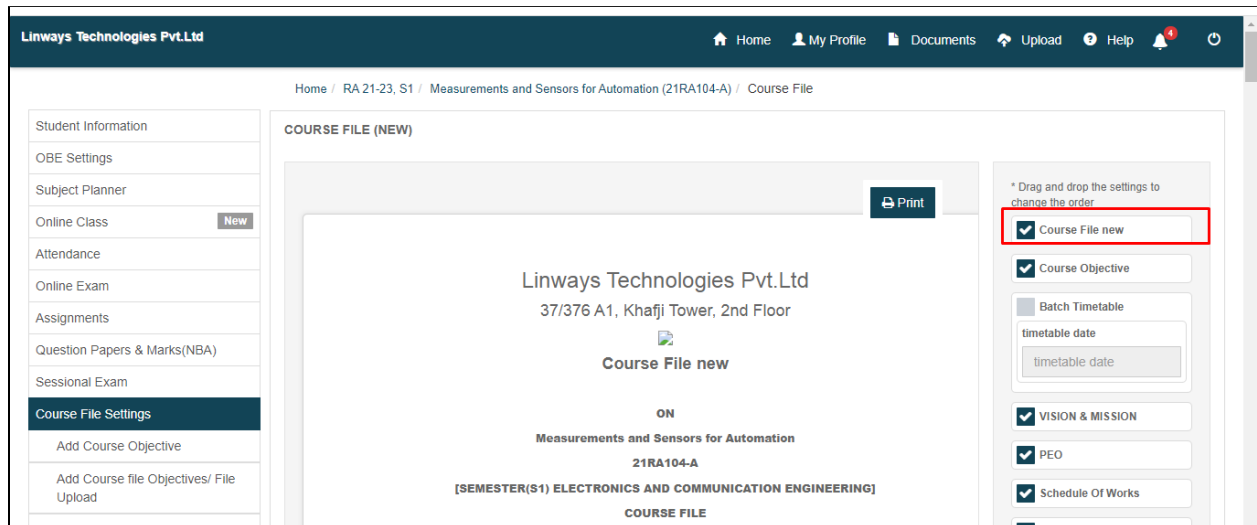

Step 1: Go to admin -> more -> Customize Course File label

Step 2: Here you can change the course file section name. In the screenshot below have changed the label name of course file to course file new .

Order	Constant	Custom Label	Properties
1	Course File	Course File new	
2	Course Objective	Course Objective	
3	Batch Timetable	Batch Timetable	
4	Schedule Of Works	Schedule Of Works	
5	Syllabus	Syllabus	
6	Course File Index	Course File Index	
7	Course Outcome	Course Outcome	
8	General Instruction	General Instruction	

Step 3: In faculty login -> Select a subject -> course file settings -> Course file (New), the section course file will be seen as course file new

FACULTY LOGIN:

1.Add Course File Objectives/File Upload (new sub menu)

The custom course file sections created from the admin side will be visible in this option. Faculties can also create customised sections from this option but that option will only be visible for that particular faculty who have created it.

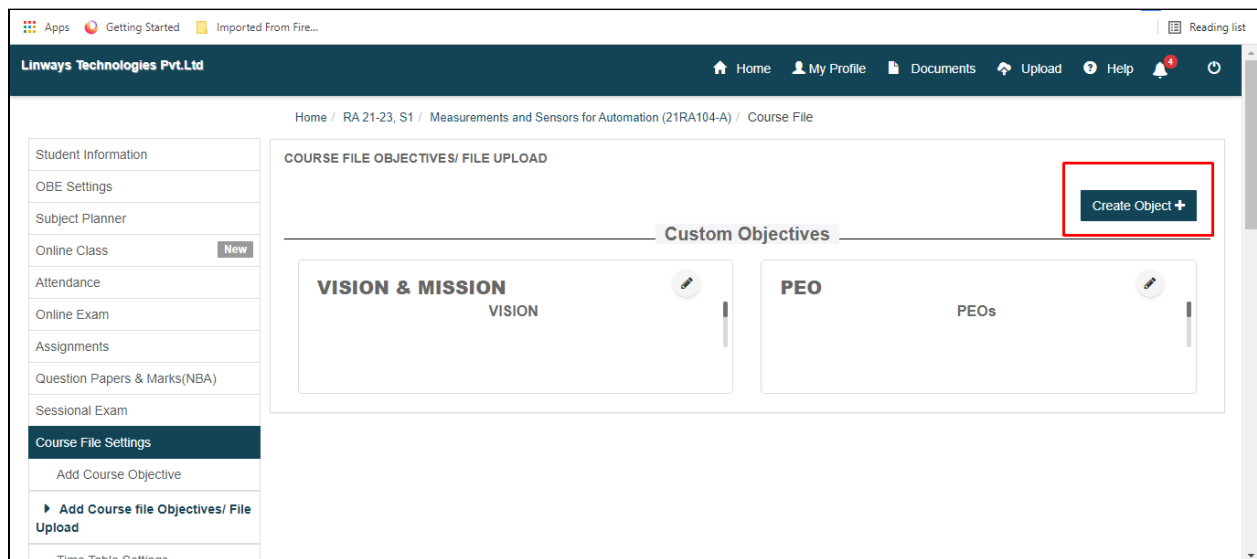

Steps to create custom course file sections from faculty login:

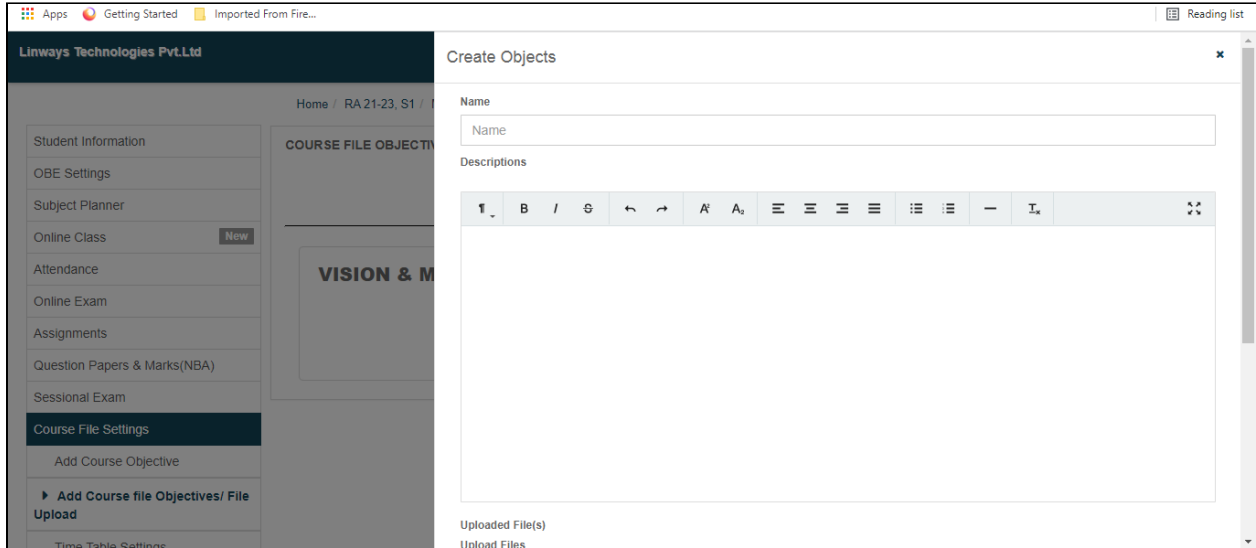

Step 1: custom course file section can also be added to course file from faculty login

Step 2: Go to faculty login -> course file settings -> Add course File objectives/File upload

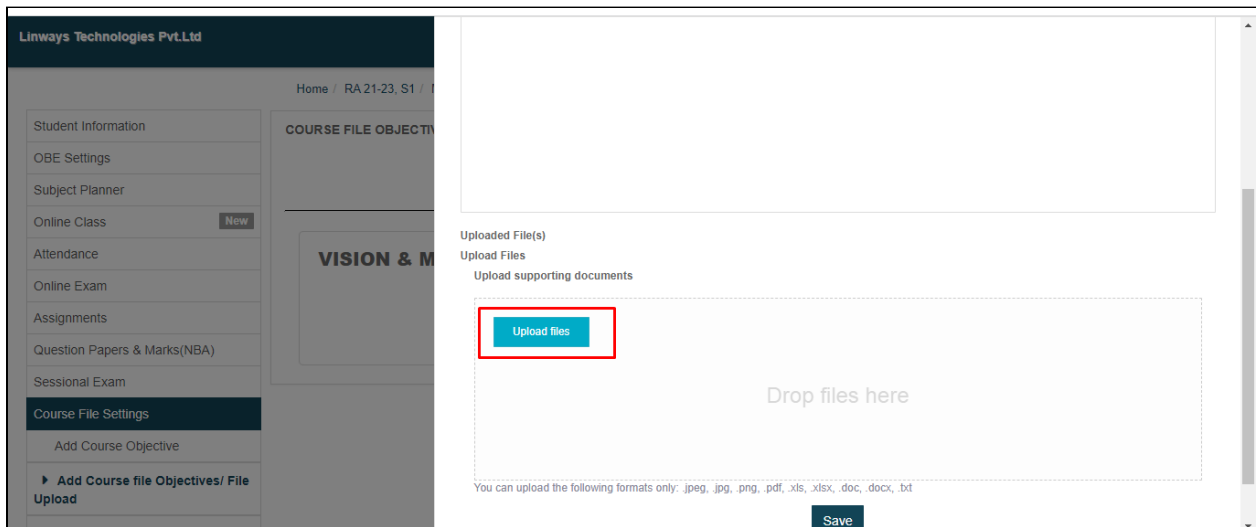

Step 3: click on the option create object to create a new custom section in course file

Step 4: Add the name and description details of the new custom section.

Step 5: Also here there is an option to upload files . sections created here will be visible in the course file.

2. Eligibility report

In eligibility report you can see the list of students with attendance percentage greater than 75 percentage

There are no students to be identified as weak students for this examination!
